“எழுத்தறிவித்தவன் இறைவன் ஆவான்” எனும் அவ்வை பிராட்டி ஆத்திச்சூடிபடியும்.

### Certificate for Appreciation

This is to certify that the Department of Nutrition and Dietetics, Trinity College for Women, Namakkal, organized an awareness programme titled “Therapeutic Potential Millets” on 19th December 2024 on the College campus.

I was the chief guest of that programme. Many students of the college are interested in taking part in the programme. Millets are an ancient crop of the people and hold a lot of significance in the agriculture of India.

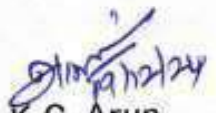

The food and agricultural organizations and the United Nations have recognized 2023 as the International Year of Millets.

Our ancestors used these millet foods in their regular diets. Millet gives us a variety of benefits, like the contents of nutrients, minerals, antioxidants, dietary fiber and vitamins. Previously, it was called a poor man’s food. Now, all people, including rich men, also consume these foods as per the advice of medical practitioners.

Definitely, this type of programme is very helpful for all the participants.

As the special invitee of that programme, I appreciate the management, Principal, the Heads of department, the faculty members and the students of Nutrition and Dietetics for conducting this programme neatly and effectively.

As the District Designated Officer, Food Safety Department, Namakkal, I convey gratitude to all the family members of Trinity Academy.
